

PNT2026 SPONSORSHIP PROSPECTUS

4-6 February 2026

Royal Randwick, Sydney NSW

PNT2026 SPONSORSHIP PROSPECTUS

4-6 February 2026

Royal Randwick, Sydney NSW

We are pleased to announce the merger of the **Australian Institute of Navigation (AIN)** and the **International Global Navigation Satellite Systems (IGNSS) Association Incorporated**.

With a distinguished history spanning 76 years, AIN is a proud member of the International Institutes of Navigation which includes, for instance, the United States Institute of Navigation and the Royal Institute of Navigation. The IGNSS Association Incorporated have run international conferences for over 30 years tracking the latest advances in satellite positioning and attracting world class speakers and delegates. These esteemed organisations have made significant contributions to advancing Positioning, Navigation, and Timing (PNT) research, development, and practice throughout the decades.

PNT2026, previously delivered under the esteemed banner of the IGNSS Conference Series, will now be officially hosted by AIN, organised by the AIN's new PNT Sub-Committee, led by:

- Prof. Andrew Dempster: Vice-President of AIN & Chair of the PNT Sub-Committee
- A/Prof. Craig Roberts: Deputy Secretary of AIN & Secretary of the PNT Sub-Committee
- Prof. Allison Kealy: Deputy Treasurer of AIN & Treasurer of the PNT Sub-Committee.

As Australasia's premier gathering for PNT technologies—extending beyond satellite navigation systems—PNT2026 will uphold the tradition of delivering a world-class program of speakers and topics, strengthening ties between industry, academia, government, and defence.

The event will build on the success of IGNSS 2024, offering a dynamic platform for discussing key issues such as GNSS resilience, sensor fusion, space-based PNT, and cybersecurity threats like jamming and spoofing. With technical sessions, industry exhibitions, and networking opportunities—including the much-loved Sydney Harbour Cruise—PNT2026 will provide a forum for shaping the future of PNT technologies and infrastructure.

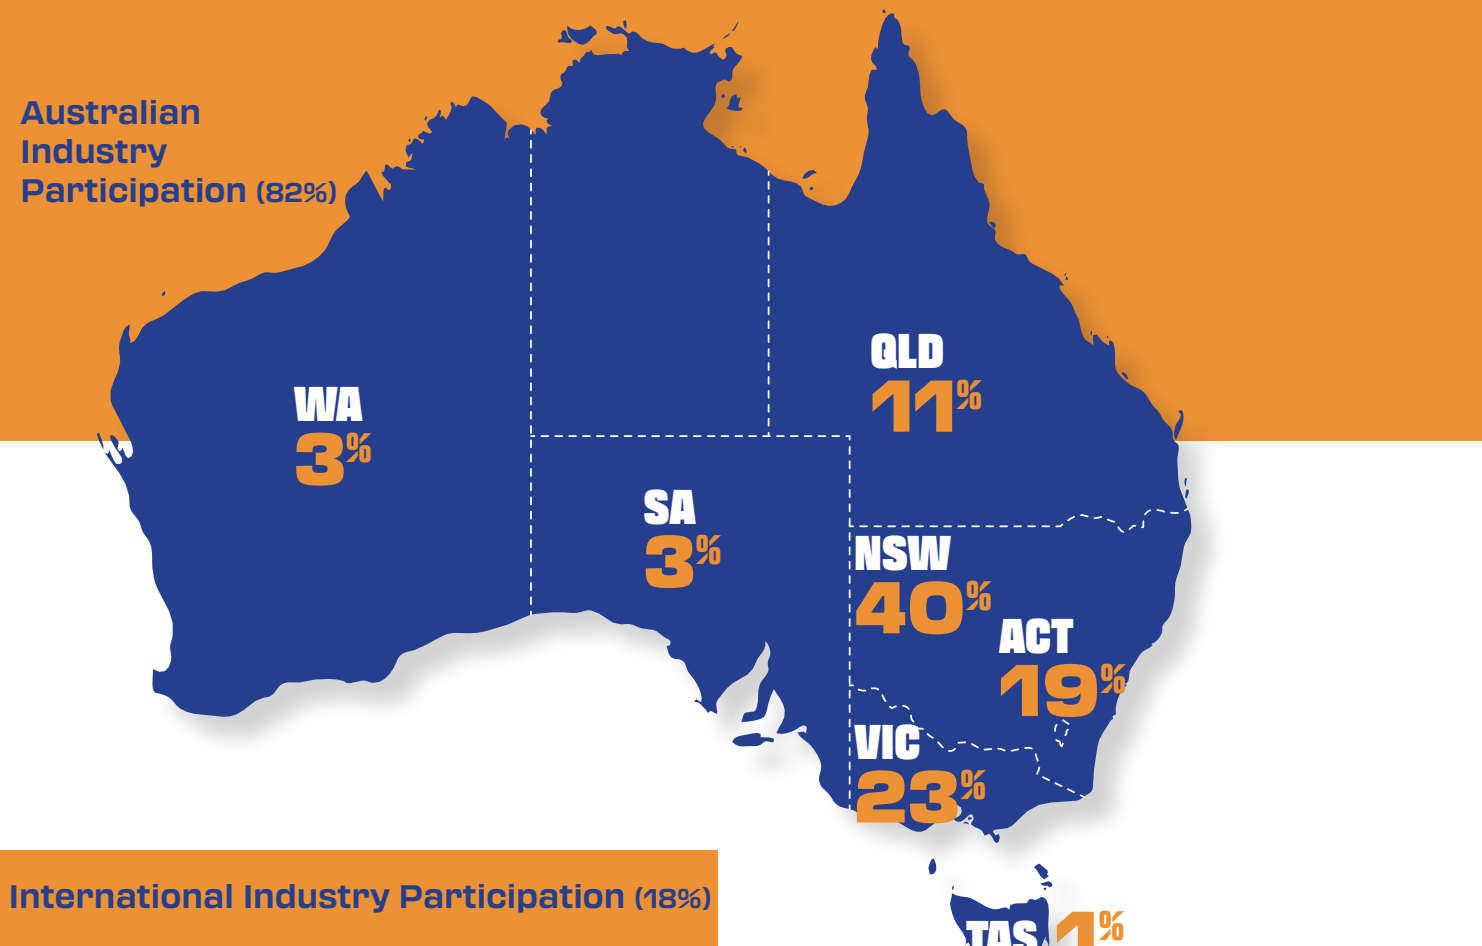

WHO ATTENDS

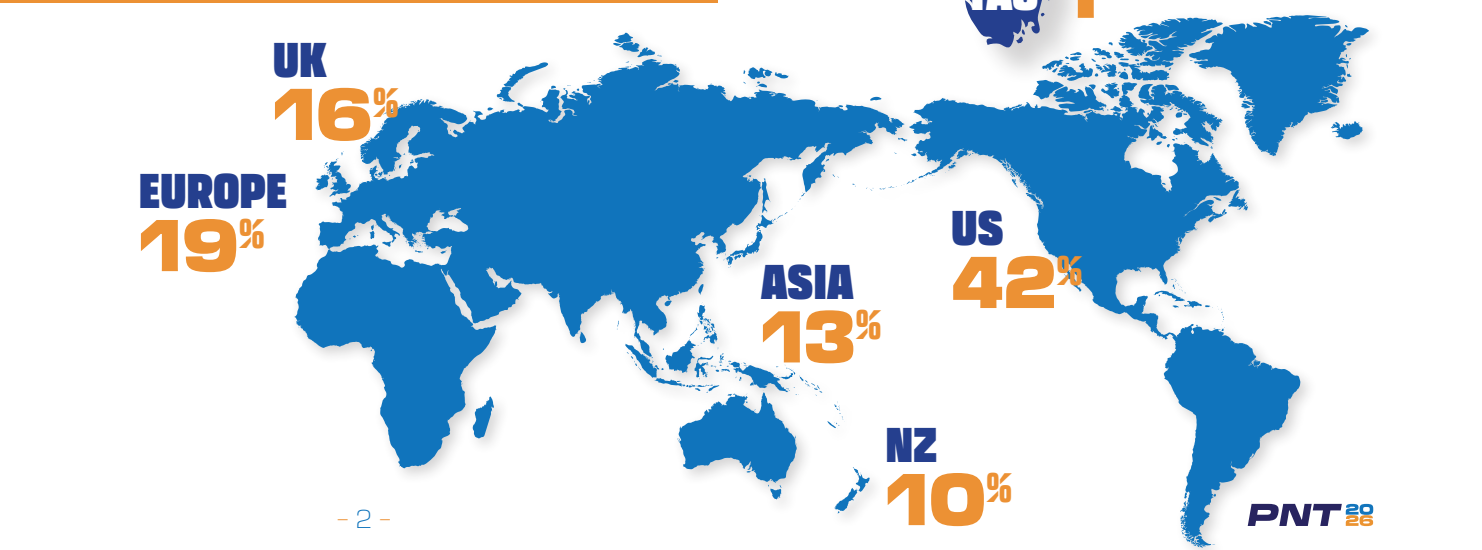

PNT2026 attracts a diverse audience from across the PNT and geospatial sectors, including:

- **Government & Defence:** Policy makers, regulatory bodies, and national security experts
- **Aviation & Aerospace:** Avionics, air traffic management, and space applications
- **Maritime & Transportation:** Autonomous navigation, intelligent transport systems, and logistics
- **Agriculture, Construction & Mining:** Precision positioning for automation and machine guidance
- **Research & Academia:** Universities, R&D institutions, and early-career professionals
- **Industry & Technology Providers:** GNSS hardware manufacturers, software developers, and infrastructure providers.

Australian Industry Participation (82%)

International Industry Participation (18%)

WHY SPONSOR?

Sponsoring PNT2026 puts your organisation at the forefront of **PNT innovation**, offering valuable opportunities to:

- **Showcase Leadership:** Position your organisation as a key player in the future of GNSS and PNT.
- **Maximise Visibility:** Gain exposure through conference branding, exhibitor promotions, and digital marketing.
- **Engage with Decision Makers:** Network with government, defence, and commercial industry leaders shaping the PNT landscape.
- **Support Industry Growth:** Align your brand with cutting-edge discussions on resilience, augmentation systems, sensor fusion, and alternative PNT solutions.

This is an **exciting opportunity to connect with experts across industry, academia, defence and government**. If you're interested in sponsoring **PNT2026**, please contact us for more information on sponsorship tiers.

*We look forward to welcoming you to **Sydney for PNT2026!***
